

- 1 When measuring the room the more information taken the easier to plan.
- 2 First measure the length of the walls corner to corner. (Line A)
- 3 Then measure the height of the ceiling from the floor. (Line B)
- 4 Measure doorways, openings and window frames from the wall corners and the height of the frames from the floor and the size of the frames. (Line C)
- 5 Take note of which way doors open.
- 6 Also measure other fixed items like DB Board and plugs and plumbing not to be moved. (Line C)
- 7 Measure all appliances that are to be fitted. (example: Fridge, 1800mm high x 600mm wide x 600mm deep)
